PROFESSIONAL SUMMARY

I am an MBA (Marketing) professional with experience in performance marketing, sales, and data analysis. Currently, I am working as a Performance Marketing Executive where I manage and optimize campaigns on Google Ads and Meta platforms, focusing on lead generation and improving campaign performance.

I have hands-on experience in analyzing campaign data using Excel, Power BI, SQL, and Google Analytics, which helps me track important metrics like CTR, CPL, conversion rate, and ROI. Based on this data, I continuously optimize campaigns to improve results.

Along with marketing, my background in real estate sales has helped me understand customer behavior, handle clients effectively, and improve lead-to-conversion ratio. This combination of marketing + data + sales allow me to contribute directly to business growth.

KEY SKILLS

Performance Marketing — Campaign Optimization — Conversion Rate Optimization (CRO) — Data Analysis — Lead Generation — Marketing Analytics — CRM Management — Sales & Client Handling

WORK EXPERIENCE

Netzwerk.ai, Performance Marketing Executive

April 2024 – Present
